All India Coordinated Research Project on Vegetable Crops

At a glance

All India Coordinated Research Project on Vegetable Crops was started during the fourth five-year plan in 1970-71, to provide national grid for multi-location testing of the vegetable technologies developed by various research institutes and state agricultural universities. The Head Quarter of the project was at the Division of Vegetable Crops, Indian Agricultural Research Institute (IARI), New Delhi and the Project Coordinator (Vegetable Crops) joined the project in July 1971. In the subsequent phase of development, several new centres were included under the project. The basic aim behind these new inclusions was to cover broadly classified eight agro-climatic zones of India under the AICRP trials. However, Kovilpatti centre of Tamil Nadu Agriculture University was deleted during the seventh five year plan. With the shifting of Project Directorate from IARI, New Delhi to Varanasi in 1992, Varanasi also became one of the main centres of the project. The XI Plan EFC mainly focused for better utilization of manpower and resources, the NSP (Veg.) and AICRP (VC) were merged together. Since all the centres under NSP (VC) except IARI (R.S.), Karnal were located at the place where AICRP (VC) was also operational. Thus, presently there are 29 centres under the project. AICRP (VC) centres are staffed with 77 scientists, 83 technicians, 1 administrative staff and 10 skilled supporting staff. List of the plan wise status of AICRP (VC) centres is given in table.

Table: Planwise initiation of AICRP (Vegetable Crops) centres

Centres	Initiated in plan
Main centres	
1. Indian Agricultural Research Institute, New Delhi	IV Plan
2. IARI Regional Vegetable Research Station, Katrain, Kullu, Himachal Pradesh	IV Plan
3. Indian Institute of Horticultural Research, Bangalore, Karnataka	IV Plan
4. Punjab Agricultural University, Ludhiana, Punjab	IV Plan
5. Rajendra Agricultural University, Sabour, Bihar	IV Plan
6. Mahatma Phule Krishi Vidyapeeth, Rahuri, Maharashtra	IV Plan
7. Tamil Nadu Agricultural University, Coimbatore, Tamil Nadu	IV Plan
Sub Centres	
8. Govind Ballabh Pant University of Agriculture & Technology, Pantnagar, Uttarakhand	IV Plan
9. Chandra Shekhar Azad University of Agriculture & Technology, Kanpur, U.P.	IV Plan
10. Assam Agricultural University, Jorhat, Assam	IV Plan
11. Odisha University of Agriculture & Technology, Bhubaneswar, Odisha	IV Plan
12. Jawaharlal Nehru Krishi Vishwa Vidyalaya, Jabalpur, M.P.	IV Plan

13.	Department of Horticulture, Jammu & Kashmir, Srinagar, J&K	IV Plan
14.	Y.S. Parmar Agriculture University, Solan, H.P.	IV Plan
15.	Andhra Pradesh Agricultural University, Lam, Guntur, A.P.	IV Plan
16.	Rajasthan Agricultural University, Durgapura, Jaipur, Rajasthan	IV Plan
	* Tamil Nadu Agriculture University, Kovilpatti, T.N. (During VII Plan centre was dropped)	IV Plan
Addition of participatory centres in subsequent phase of AICRP development		
17.	Bidhan Chandra Krishi Vishwavidyalaya, Kalyani, W.B	V Plan
18.	Marathwada Krishi Vishwavidyalaya, Ambajogai, M.S.	V Plan

20.	Narendra Dev University of Agric. and Tech., Faizabad, U.P.	VI Plan
21.	Kerala Agricultural University, Vellanikkara, Kerala	VI Plan
22.	Indian Institute of Vegetable Research)- (Head Quater)	VII Plan
23.	Andhra Pradesh Agricultural University, Hyderabad, A.P.	VII Plan
24.	Gujarat Agricultural University, Junagadh, Gujarat	VII Plan
25.	University of Agricultural Sciences, Dharwad, Karnataka	VIII Plan
26.	Indira Gandhi Krishi Vishwavidyalaya, Raipur, C.G.	VIII Plan
27.	IARI (Reg. Station), Karnal (After the merger of AICVIP with NSP)	XI Plan
28.	CAU, Pasighat, Arunachal Pradesh	XI Plan
29.	Rajendra Agricultural University, Samastipur, Bihar	XI Plan

Co-opting Centres

Apart from twenty nine centres, 26 co-opting centres are also associated with the programme on voluntary basis. Among the Co-opting centres 12 centres are SAU's based, 10 centres are ICAR based and rest six are under public research organizations. List of the co-opting centres under different components is given in table.

Table : Co-opting Centres

SAU based Co-opting centres	ICAR institute based Co-opting centres	Other Co-opting Centres
1. PDKV, Akola	1. ICAR Research Complex., Barapani	1. DIBER, Pithoragarh

9. GBPUAT, Ranichauri	9. CIAH, Bikaner	
10. MPAUT, Udaipur	10. CHES (IIHR), Bhubaneswar	
11. HCRI, TNAU, Periyakulam		
12. SDAU, Jagudan		

Mandate

- To collect, evaluate and conserve the vegetable biodiversity that exists in different agro-climatic zones of the country
- To develop improved varieties and hybrids resistance to biotic and abiotic stresses through multi-locational testing of mandated vegetable crops
- To develop appropriate production technology for selected vegetable crops
- To develop and standardize appropriate protection technology for major diseases and insect-pests
- To standardize the seed production technology of mandated vegetable crops
- To monitor breeder seed production of released / notified varieties
- To act as a national repository of scientific information relevant to vegetable crops

Achievements

(A) Development of varieties and hybrids

The AICRP (VC) has made strides in development and production of vegetables in a very short span of time. In four decades project has developed 461 varieties in 24 vegetables crops, which have been identified for cultivation in different climatic zones. Among these, 273 are high yielding open pollinated, 141 are hybrids and 47 are resistant to diseases.

Table : Number of Varieties and Hybrids developed under AICRP - Vegetable Crops (1971- 2013)

Crops	Varietal	Hybrids	Resistant	Total
Brinjal	48	38	8	94
Tomato	40	36	7	83
Chilli	24	15	0	39
Capsicum	1	5		6
Pea	26	0	13	39
Okra	-	12	16	28
Onion	25			25
Garlic	10			10
Cauliflower	14	7		21
Cabbage	3	7		10
Carrot	3	1		4
Cowpea	12			12
Dolichos bean	5			5
French bean	10			10
Muskmelon	10	2	3	15
Water melon	3	2		5
Ash gourd	5	2		7

Crops	Varietal	Hybrids	Resistant	Total
Bitter gourd	6	4		10
Bottle gourd	8	5		13
Cucumber	3	3		6
Pumpkin	8			8
Ridge gourd	3	2		5
Sponge gourd	6			6
Total	273	141	47	461

Zone specific varieties

The countries is divided into 8 agro-climatic zones . Each zone have specific climate and soil, hence requires different varieties suited to their condition. Accordingly the new varieties are developed by the coordinating centres under the ageis of AICRP (Vegetable Crops). A total of 824 varieties/ hybrids have been developed among which 496 are open pollinated, 250 are hybrids and 78 resistant varieties for several biotic and abiotic stresses. The maximum number of varieties identified for the Sub-Humid Sutlej Ganga Alluvial Plain Zone No. IV (209) which covers states of Punjab, U.P., Bihar and Jharkhand. Next to Zone IV, Zone VII with 164 identified varieties which covers states of Madhya Pradesh, Maharashtra and Goa .

Zone wise Varieties and Hybrids developed under AICRP -Vegetable Crops (1971- 2013)

Agro-climatic zone	States	O.P.	Hybrids	Resistant	Total
I. Humid Western Himalayan Region	Jammu & Kashmir (J& K) , Himachal Pradesh and Uttarakhand	45	22	8	75
II. Humid Bengal - Assam Basin	West Bengal and Assam	12	10	4	26
III. Humid Eastern Himalayan and Bay Islands	Sikkim, Meghalaya, Manipur, Nagaland, Mizoram, Tripura, Arunachal Pradesh and Andaman & Nicobar Islands	4	0	0	4
IV. Sub-Humid Sutlej Ganga Alluvial Plain	Punjab, U.P., Bihar and Jharkhand	115	79	15	209
V. Sub-Humid to Humid Eastern and South Eastern Uplands	Chhatisgarh, Orissa and Andhra Pradesh.	37	19	12	68
VI. Arid Western Plain	Rajasthan, Gujarat, Haryana and Delhi	78	33	6	117
VII. Semi Arid Lava Plateau and Central High Lands	Madhya Pradesh, Maharashtra and Goa	100	51	13	164

Agro-climatic zone	States	O.P.	Hybrids	Resistant	Total
VIII. Humid to Semi - Arid Western Ghats and Karnataka Plateau	Karnataka, Tamil Nadu, Kerala and Pondicherry	60	20	12	92
All zones		45	16	8	69
Total		496	250	78	824

***A variety /hybrid may also suited for the other zones again counted.**

The Indian Agricultural Research Institute, New Delhi; Indian Institute of Vegetable Research, Varanasi; Indian Institute of Horticultural Research, Bangalore and Punjab Agriculture University, Ludhaina played major role in development of new open pollinated varieties and hybrids. Few varieties developed by these institutes are so popular that were developed in sixty's and seventies are still popular among the farmers. IARI Regional Station, Katrain played a major role in development of the temperate crops varieties.

Among the sub centres GBPUA&T, Pantnagar (26), NDUA&T, Faizabad(21), CSAUA&T, Kanpur (17), OUA&T, Bhubaneshwar (14), CCS HAU Hisar(13) have contributed a significant number of varieties and hybrids for their respective regions.

The contribution of non-funded institutes/ Organizations in development of varieties and hybrids are not the least. Significantly number of new varieties and hybrids in almost all the major crops have been developed. Among the voluntary centres specifically the HARP, Ranchi (24), AAU, Anand (10), VPKAS, Almora(12) contributed number of varieties in all the major vegetable crops.

Role of the private companies in the development of vegetables new hybrids are not the least. Private companies are placing more and more emphasis on the development of hybrids to exploit heterosis, and to combine multiple disease and stress resistance, but also for economic purposes to ensure growers must purchase seed for each planting. Private seed companies are mainly interested in the breeding and production of vegetable seed with a high commercial value. Private companies strived more and more to bring hybrid seeds onto the market. Worldwide the share of hybrid seed is increasing at a fast pace of 8 to 10% annually.

Table: Number of Varieties and Hybrids developed by centres and Pvt. Seed Companies (1971-2013)

Development of Production and Protection Technologies- To boost the vegetable production, it is essential to develop the advance production and protection technologies for particular region. Hence several technologies have been developed in various disciplines. A total of 752 technologies have been developed since inception of the AICRP (VC). Among these technologies 356 for Production, 150 for seed quality enhancement, 125 for disease management and 97 for Insect Pest Management have been evolved or standardized. The table indicates the cropwise and discipline wise technologies developed.

Crop wise Technologies Developed from 1971-2013

S.N.	Crop	Prod.	Seed Prod.	Biochem.	D.M.	I.P.M.	Total
